Hub

#### ASSEMBLY INSTRUCTIONS

- Pre-assemble the hub pack: put the progressive engagement plate (003MG015) on the hub (0F3SR580A23A01B), with the step facing up, put it correctly into its seats, then check that pushing on one side the other side lifts up. Place the 6 steel balls (001MG025) at the bottom of the grooves of the hub (0F3SR580A23A01B) using a small amount of grease then fix the drum (0F3SR580A23002B) onto the hub (0F3SR580A23A01B) with an M6x1 screw in an at-rest position.
- ATTENTION: between the original basket and the hub (0F3SR580A23A01B) you must keep the washer of the original clutch.
- Insert the hub pack onto the main shaft.
- Reinstall the original clutch plates. The total thickness of the pack must be  $50.3 \text{mm} \pm 0.3 \text{mm}$ . Attention: in the original plates kit there are two rings (one of them is conical), they should not be assembled into the plates kit when installing
- Remove the previously mounted screw.
- Position the drum stopper hub (0F3SR580A23A009) on the hub (0F3SR580A23A01B) with a small quantity of grease taking care to align the three holes with the three pins (0F3CR620E070038) inserted in the hub (0F3SR580A23A01B). Then check that the pins (0F3CR620E070038) do not stick out from the surface where the spring stopper hub (0F3SR580A230007) will be placed.
- Verify that the secondary spring support (0F3SR540B140016) is well inserted in the drum (0F3SR580A23002B) seat.
- Place the secondary spring (0S2085) in the drum (0F3SR580A23002B) housing with a small amount of grease.
- Verify that the primary spring support (003SUZ118) is well inserted in the pressure plate (0F3SR230C220003) seat.
- Insert the pressure plate (0F3SR230C220003) in the drum (0F3SR580A23002B).
- Insert the Evoluzione primary spring (0S1125) in the pressure plate (0F3SR230C220003) housing.
- Pre-assemble the spring stopper group: keep the spring stopper plate (0F3MR320E220008) with the groove for the bearing facing up as illustrated, insert the ball bearing (003MG007) and then the spring stopper hub (0F3SR580A230007).
- Insert the spring stopper group into the pressure plate (0F3SR230C220003) making the 9 wings of the spring stopper plate (0F3MR320E220008) overlap the 9 spring (0S1125) tips.
- Insert the notched washer(0F3SR540D220017) with the convex part facing up and then the nut (0F3SR580A230013) in the spring stopper hub (0F3SR580A230007).
- Screw the nut onto the drive shaft, locking with the dynamometric key to the torque suggested by the manufacturer, using the tool (0A5SR450A220000) supplied with the clutch. To lock the pressure plate (0F3SR230C220003) we suggest to use the specific tool (002AMS001) not supplied with the clutch.
- Pre-assemble the complete bearing rest: mount the clutch pushrod piece and the bearing of the original clutch into the bearing rest (0F3SR580A230004)
- Position the complete bearing rest into the relevant opening of the pressure plate (0F3SR230C220003) taking care to correctly place it in the openings and fix it with the six screws (901VT018) and with the notched washers (901RD007).

Once the assembly is completed, mount the clutch guard, then repeatedly operate the clutch lever to check that pressure plate correctly performs the opening and closing movements.

#### GENERAL SAFETY REGULATIONS

- IN THIS SHEET ARE REPORTED THE DIRECTIONS TO PERFORM CORRECTLY THE CLUTCH ASSEMBLY OPERTIONS.
   STM RESERVES THE RIGHT, WITHOUT NOTICE, TO INTRODUCE ANY TECHNICAL CHANGE WHENEVER DEEMED IT TO BE NECESSARY TO IMPROVE FUNCTION AND QUALITY OF THE

- PRODUCTS.

   ASSEMBLY OPERATIONS MUST BE PERFORMED BY A SKILLED TECHNICIAN AND MUST BE SCRUPULOUSLY OBSERVED.

   BEFORE MOUNTING THE CLUTCH MAKE A COMPLETE INSPECTION OF THE MOTORBIKE COMPONENTS, IN ORDER TO VERIFY THE POSSIBLE PRESENCE OF FAULTS OR ANOMALIES ON THE VEHICLE. - MAKE SURE THAT THERE ARE NO MISSING/DAMAGED PARTS IN THE CLUTCH KIT
- MAKE SUKE THAT THERE ARE NO MISSINGUAMMAGED PARTS IN THE CLUTOR INT.

  STM ITALY SRL PRODUCTS ARE EXCLUSIVELY INTENDED FOR COMPETITION ON TRACKS,
  IOT SUITABLE ON MOTORBIKES ON PUBLIC ROADS,

  SOME PARTS OF THE CLUTCH AND ITS COMPONENTS CAN HAVE SHARP SURFACE: HANDLE
- SUME PARTS OF THE CLUTCH, BECAUSE OF THEIR SMALL DIMENSIONS CAN BE SWALLOWED: KEEP AWAY FROM CHILDREN.
